RESIDENTIAL MODEL SUMMARY 2021 REVALUATION

Appraisal Cycle Date – January 1, 2021 to December 31, 2024

Effective Date of Valuation – January 1, 2019

Model Specification

The total of these variables develop the cost value of your property.

| Variable | Measurement | Rate |
|--------------------------|----------------|----------|
| Floor Area | \$/Square Feet | \$195.48 |
| Basement Foundation Area | \$/Square Feet | \$54.39 |
| Basement Finish | \$/Square Feet | \$25.36 |
| Attached Garage | \$/Square Feet | \$71.92 |
| Detached Garage | \$/Square Feet | \$36.86 |
| Shed | \$/Square Feet | \$25.32 |
| Deck/Veranda/Solariums | \$/Square Feet | \$33.57 |

The total from these variables above are then adjusted by the following factors that apply to your property.

Structure Type

| Structure Type | Factor Adjustment |
|---------------------------|-------------------|
| 1 & 2 Story with Basement | 1.000 |
| Split Entry | 1.035 |
| Split Level | 1.038 |

Quality

| Quality | Factor Adjustment |
|-------------|-------------------|
| Economy | 0.771 |
| Substandard | 0.882 |
| Fair | 0.985 |
| Standard | 1.000 |
| Semi-Custom | 1.068 |
| Custom | 1.161 |
| Expensive | 1.161 |

Condition Factor

| Condition Factor | Factor Adjustment |
|-------------------------|-------------------|
| Poor | 0.500 |
| Below Average | 0.750 |
| Average | 1.000 |
| Above Average | 1.023 |
| Good | 1.093 |
| Very Good | 1.190 |
| Superior | 1.279 |
| Excellent | 1.380 |

Neighbourhood

| Neighbourhood | |
|------------------------------------|--------------------------|
| Neighbourhood | Factor Adjustment |
| Adanac Pointe/Lakeview (west side) | 1.131 |
| Carlton Park | 0.968 |
| Country Residential Acreages | 1.157 |
| Crescent Acres | 1.000 |
| Crescent Heights – Market Area 1 | 0.938 |
| Crescent Heights – Market Area 2 | 0.919 |
| East Flat | 0.868 |
| East Hill – Market Area 1 | 0.894 |
| East Hill – Market Area 2 | 0.844 |
| Goshen | 0.925 |
| Hazeldell | 0.915 |
| Midtown – Market Area 1 | 0.767 |
| Midtown – Market Area 2 | 0.829 |
| Nordale | 0.924 |
| River Heights | 0.903 |
| River Street East | 1.029 |
| Riverview | 0.841 |
| Southwood | 0.914 |
| West Flat – Market Area 1 | 0.659 |
| West Flat – Market Area 2 | 0.756 |
| West Flat – Market Area 3 | 0.494 |
| West Hill – Market Area 1 | 0.964 |
| West Hill – Market Area 2 | 0.941 |
| West Hill – Market Area 3 | 0.918 |
| Westview | 0.701 |
| | |

Depreciation

Depreciation is split between 9 groups. The depreciation is based on the base date of January 1, 2019.

| Years of Depreciation | Factor Adjustment |
|-----------------------|-------------------|
| 0 - 9 | 1.000 |
| 10 - 19 | 0.904 |
| 20 - 29 | 0.823 |
| 30 - 39 | 0.726 |
| 40 - 49 | 0.688 |
| 50 - 59 | 0.667 |
| 60 - 69 | 0.647 |
| 70 – 79 | 0.634 |
| 80+ | 0.559 |

Size Adjustment

The size adjustment is based on the total square footage of the property.

| Total Area | Measurement | Factor Adjustment |
|-------------|-------------|-------------------|
| 0 - 899 | Square Feet | 1.123 |
| 900 - 1099 | Square Feet | 1.000 |
| 1100 - 1299 | Square Feet | 0.916 |
| 1300 - 1499 | Square Feet | 0.852 |
| 1500 - 1699 | Square Feet | 0.810 |
| 1700 – 1899 | Square Feet | 0.754 |
| 1900+ | Square Feet | 0.683 |

Land to Building Ratio

To calculate the land to building ratio:

Divide the square footage of the land parcel by the footprint square footage of building(s)

Parcel square feet / footprint(s) square feet = Ratio

| Ratio | Factor Adjustment |
|-------------|-------------------|
| 0-2.99 | 0.961 |
| 3-6.99 | 1.000 |
| 7 and above | 1.054 |

Miscellaneous Variable(s)

| Variable | Factor Adjustment |
|---------------------------------|-------------------|
| Central Air Conditioning | 1.023 |
| Plumbing Fixtures – 8 and over | 1.020 |
| Plumbing Fixtures – Less than 7 | 1.000 |
| Cul-de-Sac | 1.031 |
| Greenspace | 1.015 |
| High Arterial | 0.832 |
| Medium Arterial | 0.962 |

Residential Model

Identification of Model

A residential dwelling is typically designed and constructed for the accommodation and use of one family. Limited structural modifications may allow for the use of these dwellings by more than one family.

A residential dwelling designed and constructed for the accommodation of two or three families is still valued based on this model. A multi-family dwelling is constructed with self contained living areas for each family. Each family living area is a separate unit with exterior entries and interior layouts arranged to provide security and privacy for each unit.

The sales comparison approach is the method of valuation used to assess residential properties. The sales comparison approach is appropriate for determining property assessments for locations and property types with active sales markets, such as residential property in medium to large cities. Multiple regression analysis (MRA) techniques are commonly used in developing these valuation models.

Neighbourhood Type Descriptions

Country Residential – Acreage properties West of Hazeldell & East of the Airport.

All other neighbourhood locations, please see Neighbourhood map found on the website.

Data and Analysis

A total of 1627 residential sales analyzed from January 1, 2015 to December 31, 2018. The following are the statistical results based on the development of the model.

Through the MRA modeling process, the following variables were determined to be significant:

- Floor area
- Basement foundation area
- Basement finish
- Attached garage
- Detached garage
- Shed over 100 square feet
- Deck, verandah, solarium
- Structure type
- Quality
- Condition factor
- Location (neighbourhood)
- Depreciation
- Size adjustment
- Land to building ratio
- Central air conditioning
- Plumbing fixtures 8 or more
- Cul de Sac
- Greenspace
- High Arterial
- Medium Arterial

| Ration Statistics for Assessment/Adjusted Price | | |
|---|--------|--|
| Number of Sales | 1627 | |
| *Median ASR | 1.00 | |
| **Coefficient of Dispersion (COD) | 11.77% | |

^{*}Median ASR – the ratio of the assessed value to the sale price (or adjusted sale price) of a property or group of properties.

For details on the condominium sales, please request a sales list from the Assessment Division at assessment@citypa.com or by calling 306-953-4320 ext. 2 for Assessment.

^{**}Coefficient of Dispersion (COD) – most common measure of appraisal uniformity. This is the average deviation of a group of numbers from the median expressed as a percentage of the median.
